Flag Status: Flagged

Andrew,

Looking at the briefing documents, I'm slightly confused about what's proposed for access to the Thickthorn end of the site.

At the moment the properties in Thickthorn Close have a distinct character brought about by their seclusion and single access off Birches Lane solely to the properties. However, diagrams on pages 144 and 145 suggest it will be possible to access the north end of the Thickthorn site from Thickthorn Close.

I hope that this is not the case but would be grateful if you can confirm what is proposed.

Regards,

Richard
