Title Dr First name/initials L

Criteria by which Gypsy and Traveller's sites will be judged for suitability and sustainability by Warwick District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

I object to the proposed site GT02 on the following points.

1. Economic impact - the loss of the warwick Exhibition Centre would have a profound impact on the local economy. This is a successful exhibition centre with the potential for future growth. It attracts visitors from all over the UK and creates local employment with knock on effects to local bed & breakfast establishments, pubs, shops etc. This employment is badly needed; loss of the exhibition centre will result in unemployment and loss of revenue to the area and cost the council tax payer compensation which is excessive and greater than any other proposed site.
2. Historic site - the Fosse Way is an ancient

Warwick District Council will judge proposed sites against the nationally accepted criteria. The purpose of the criteria is to seek to meet the requirements of the Gypsy and Travellers community not necessarily local residents, businesses and employment.

Areas of concern could include:

- Agriculture • Animal Welfare • Co-existence • Crime • Ecology and Habitat • Education/Schools • Healthcare/ Surgeries • Highways and Safety • Local Economy • Rural Landscape • Services and Utilities • Tourism • Traffic Density/ Flow • Urbanisation.

to the proposals on the following grounds -

Roman Rd + the roundabout the site of an historic toll gate. This is one criteria that needs to be considered. see over

3. Access to public transport - transport links around site QTO2 are extremely poor. No rail links are available and buses extremely rare. The Fosse Way is indeed a very dangerous road totally unsuitable for children walking or cyclists.

4. Access to GP surgery + schools - access from the QTO2 site is poor. As stated in the local plan, gypsies experience poor health + education. The nearest primary school is at Radford Semile and the GP surgery is full. The QTO2 site does nothing to improve the situation and access to health care + education - a prime Please continue on a separate sheet if necessary

Do you have any other suggestions for land within Warwick District that you think would be suitable for use as a Gypsy and Traveller site, bearing in mind the criteria for site identification? If so, please give the location and the landowners details below:
