

Dear sir,

I wish to register my objection to the possible creation of a travellers site in Leicester lane, Cubbington.

The residents of Cubbington are already under threat of the proposed construction of HS2 and the disturbance caused by heavy construction vehicles that will use the proposed construction/maintenance depot at Furzon. Other on going threats are that of construction on green belt land in the area and that of altering the parish boundary in order to bring North Cubbington into Leamington.

I consider that the additional threat of a travellers site is a threat to far for the residents of Cubbington as I cannot see it benefiting the parish at all and in all probability doing the opposite.
