7. Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty co-operate. Please be as precise as possible. If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to cooperate, please also use this box to set out your comments.

Warwick University expansion plans are not adequately detailed in the Plan to cover the period until 2029. The statement in 3.145 does not given any details of the update due of its future vision which is during their current master plan period (2009 - 2019). So the Local Plan just states 'development will be permitted in line with an approved Masterplan or Development Brief as agreed with the relevant planning authorities'.

The expansion plans will affect the local area which already suffers through lack of investment in infrastructure in roads and parking problems. 'Relevant planning authorities' have failed to come up with the answers. e.g. New Road required - no money allocated.

A forward looking overall plan is required from the University and the Planning Authorities which addresses all of the problems before any further planning permissions are granted

Continue on a separate sheet if necessary

8. **Please set out what modification(s) you consider necessary to make the Local Plan legally compliant or sound, having regard to the test you have identified at 7. above where this relates to soundness. (Please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.**

The Local Plan will require Warwick University to present their updated Master plan in the near future (in the next 2 years) to cover the period to at least 2029 with measures :-

1. To meet their increased land requirement for staff and student accommodation, which could include Green Belt land. Plus any extra housing needs elsewhere in the WDC or Coventry area
 2. Transport facilities, solving current parking problems and future traffic congestion.
 3. Ideas which include the feasibility of a new bypass road round the University Campus for through traffic from the A46 to Kirby Corner via the Crackley Gap. Avoiding Gibbet Hill Road through Campus.
 4. A new railway Station to serve the University on the Leamington -- Kenilworth - Coventry line at Crackley Gap
 5. A Park & Ride car park adjacent to the University Railway Station
 6. Crackley Gap is the small area of open land between the Coventry and Kenilworth boundaries through which the HS2 line is drawn. The ideas above are practical as they could be adjacent to each other on the North side of the HS2 line (if it goes ahead). Both would require bridges under A429 and old railway.
- This Grand Master Plan will be agreed with all relevant parties before any further Planning Application are determined for Warwick University.

Continue on a separate sheet if necessary

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage. **After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues** he/she identifies for examination.

If necessary - I will be pleased to explain any ideas that are included in the suggestion and point out on a map where the line of the new roads are suggested.
