Criteria by which Gypsy and Traveller's sites will be judged for suitability and sustainability by Warwick District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

I OBJECT

~~I APPROVE~~

(Please delete as required.)

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

I wish to object for the following reasons.

- Harm the local economy. A number of businesses operate from the site employing a significant number of people who would lose their jobs. One of the businesses Warwickshire Exhibition Centre attracts many thousands of visitors each year contributing to the local economy. Hotels, shops, visitor attractions in the area all benefit.
- The site would have an adverse visible effect on a rural area. The area is not residential, but a rural area used mainly for agriculture without the infrastructure to support the proposed site. The site would be an urban development that would potentially result in further urbanisation over a wider area.
- The nearest schools and GP surgeries are fully subscribed and with new housing planned travellers at the proposed site would not have access to schools or GP's within the catchment area.
- There is little residential housing in the area so the travellers would be isolated and find it difficult to integrate with the local community particularly when the local schools and GP surgeries are unable to accommodate them.
- The site lacks the necessary utilities that would be required.

Warwick District Council will judge proposed sites against the nationally accepted criteria. The purpose of the criteria is to seek to meet the requirements of the Gypsy and Travellers community not necessarily local residents, businesses and employment.

Areas of concern could include:

• Agriculture • Animal Welfare • Co-existence • Crime • Ecology and Habitat • Education/Schools • Healthcare/Surgeries • Highways and Safety • Local Economy • Rural Landscape • Services and Utilities • Tourism • Traffic Density/Flow • Urbanisation.
