- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;

to the proposals on the following grounds -

serious accidents in the vicinity of the proposed site. The Gypsy/ Traveller site would increase the vehicle and foot traffic on an already very dangerous road, where there are no pavements and no pedestrian access to shops or local amenities. The local infrastructure is insufficient to be able to cope with this proposed development. Schools, doctors, hospitals are not nearby. This is a beautiful rural landscape that should not be ruined.
