Criteria by which Gypsy and Traveller's sites will be judged for suitability and sustainability by Warwick District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

AS there is no surgery in Radford Semele you would need to go to the Craft Medical Centre unfortunately this is at full capacity so the nearest surgery is in Leamington. The local school can not be accessed on foot as there are no footpaths plus there is no street lighting or in fact any of the utilities needed for a development to install all these would put up costs significantly.

This site is also of historical importance and is on the Archaeological Register. The Fosse way is a high risk road with heavy traffic travelling very fast, there have been many accidents.

Warwick District Council will judge proposed sites against the nationally accepted criteria. The purpose of the criteria is to seek to meet the requirements of the Gypsy and Travellers community not necessarily local residents, businesses and employment.

Areas of concern could include:

• Agriculture • Animal Welfare • Co-existence • Crime • Ecology and Habitat • Education/Schools • Healthcare/ Surgeries • Highways and Safety • Local Economy • Rural Landscape • Services and Utilities • Tourism • Traffic Density/ Flow • Urbanisation.

to the proposals on the following grounds -

I Strongly object to this as the Warwickshire Exhibition Centre attracts large numbers of visitors approx 40000 who spend a lots of money in the local area helping businesses to service it also employs around 40 people.

This site is on a very busy road with high traffic flow and the road it self is not very wide and does not have any street lighting

There is an Historic wood nearby this would have a adverse effect on the protected animals that live there

There is no Surgery in Radford Semele and the nearest is located in Leamington town approximately 5 miles away -
