Criteria by which Gypsy and Traveller's sites will be judged for suitability and sustainability by Warwick District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

There is no surgery in Radford Semble the nearest is 5 miles away. The Croft Surgery is Full! There are no pavements so it would be dangerous to walk anywhere. The school in Radford is almost at capacity but with the new proposed development will be overflowing with students. This is also a high risk travel route with heavy traffic flows. There are no main utilities to the site this would add a further cent to the development.

The site is also listed on the Archaeological Register as the Fosse way is of historical importance.

This site would harm the landscape as it's a valley position visible from 3 hills therefore negatively impact on local area.

Warwick District Council will judge proposed sites against the nationally accepted criteria. The purpose of the criteria is to seek to meet the requirements of the Gypsy and Travellers community not necessarily local residents, businesses and employment.

Areas of concern could include:

• Agriculture • Animal Welfare • Co-existence • ~~Crime~~ • Ecology and Habitat • Education/Schools • Healthcare/ Surgeries • Highways and Safety • Local Economy • Rural Landscape • Services and Utilities • Tourism • Traffic Density/ Flow • Urbanisation.

to the proposals on the following grounds -

The main reason for my objection is that the Warwickshire Exhibition Centre attract approx 40000 visitors per year and generates a huge amount of money for the local economy plus it employs 40 people. To remove this would put more financial pressure on local businesses already under great strain financially.

I object to the site at GTO2 and do not consider it meets all the criteria outlined plus all the extra costs involved providing all the utilities and services. ~~This would put~~ would make this a very costly exercise.
