If you are commenting on multiple sites you will need to complete a separate sheet for each representation

Sheet  of

The policy in the Draft Local Plan will list the criteria by which Gypsy and Traveller sites will be judged for suitability and sustainability. These are the criteria:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Avoiding areas where there is the potential for noise and other disturbance;
- Provision of utilities (running water, toilet facilities, waste disposal, etc);
- Avoiding areas where there could be adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

Please give your views about site suitability below with reference to this list of criteria.

## Part B - Commenting on the Gypsy and Traveller Site Options

If you are commenting on multiple sites you will need to complete a separate sheet for each representation

Sheet  of

Do you have any other suggestions for land within this district that you think would be suitable for use as a Gypsy and Traveller site, bearing in mind the criteria for site identification? If so, please give the location and the land owner's details below:

- ① Vehicular access to the site is off the A429, a main trunk road. I live by this road, and it is a very busy highway. Heavy transport - day and night. Many cars and vans. Access to this site, in or out, would be very dangerous indeed. There have been several accidents and one death, within 300 yards of this site access. AN ACCIDENT WAITING TO HAPPEN !!
- ② School children being taken to school either by car or walking, would have to cross this very busy road. ANOTHER ACCIDENT WAITING TO HAPPEN !!
- ③ As in (2) above, access into the village is very difficult, when a vehicle is used, parking is also difficult, the number of parked cars along Church Street, Wellesbourne Road, Bridge Street, causes a stop + go (give way) situation. Children trying to cross the road, between parked vehicles - ANOTHER ACCIDENT WAITING TO HAPPEN !!
- ④ This site does not have any access to Warwick on Wellesbourne without a vehicle. No BUS ROUTE. No FOOT PATH. No CYCLE ROUTE.
- ⑤ This site is a flood compensation area for the Barford bypass, and is not suitable for any development.
