DEAR SIRS,

I write to you with reference to the proposed gypsy site in the village of RADFORD SEMELE, whilst I do understand the gypsies do need places to live I feel the site proposed in RADFORD SEMELE has not been thought through with any consideration for both the Area or the gypsies themselves, for reasons listed below.

First The Fosse way APART FROM THE HISTORY going back to the Romans, there are no pavements, just to wait for a bus up the hill into RADFORD you have to stand on a bank so dangerous as it drops straight onto the road.

Second

The nearest Doctors is over five miles away due to the local Doctor's being full to capacity, as is the village school.

Third

The site proposed will sit at the bottom of quite a few hills re-coming out of RADFORD towards the

② Fosse way, the Hill Coming From Upton Towards
Ratford and The Fosse way itself. The site will be
Seen From every angle as it will siting in a valley.

Fourth My MAIN Concern. is the fatal impact this will
have on the Warwickshire Exhibition centre, This will
close, As The Gypsy site will be only yards From the
Building, and their Caravans parked in what is used
As a Car Park For all visiting the Exhibition centre.
33,000 People visited the Centre in 2012, with even
more Exhibitions Booked For this year and Next.
With even more Footfall expected for the coming years.
Free Buses into Leamington which also helps our
Local Shops, Pubs, Restaurants ect ect. How can
you risk the loss of such a great Footfall when
Leamington is already a struggling Town. I know
as I was made reluctant in Feb this year when
Dorothy Perkins/Burton closed its doors. This was also
due to lack of Trade.

look FORWARD TO your Reply.

Ms J.C. WEBB
