Criteria by which Gypsy and Traveller's sites will be judged for suitability and sustainability by Warwick District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

This site is totally wrong for many reasons.

- 1) The visual impact can not be anything other than disastrous on the side of this Roman road as it would be looked down on from all sides.*
- 2) The exhibition centre would have to close and this would be devastating for the owners and all that work there but also a big knock on effect for local services that benefit from the trade associated with these events. Pubs, B&B, taxis, hotels and shops.*
- 3) The local services would not cope as they are already over stretched. This site is so blatantly the wrong place to put the camp I can not believe it was ever considered in the first place.*
- 4) Travel wise this is a very poor location with high risk route and poor access to bus routes etc.*
- 5) The research carried out by Enfusion was so poor that I hope they have not been paid for these services.*
