Dear Sir,

Local Plan

The proposed local plan will totally destroy the rural character of the area. It is iniquitous that lots of green belt land is being taken.

The Council should take a firm stand against any immigration into the area because allowing it encourages more immigration on a national scale to an already desperately overcrowded country - England - W/M to West Midlands

conurbation nearby and Coventry as well, Warwickshire should be kept as a rural anti-dote to these massive urban sprawls.

• particular the Green Belt between Leamington and Kenilworth should be maintained and no development should be allowed at Thickthorn in Kenilworth because it is green belt and a totally inappropriate place to have a massive housing estate with the incessant noise and pollution from the road which will drive future residents bonkers.

Yours faithfully,

  
RICHARD MUNDAY.
