PRE GEN DIS

I strongly object to District Council's draft plan for future housing locally.

- In particular I believe
1. the proposal covers 12,000 houses twice the local need
  2. traffic on existing roads would be much heavier with no new infrastructure; journeya slower, congestion worse.
  3. the illegal pollution in Waverley town centre already would be much worse
  4. the rapid growth in population would put heavy pressure on schools and the hospital and other services

I believe these are other better  
solutions. and wish you would  
reconsider your proposal

Yours sincerely,  
L. J.
