Criteria by which Gypsy and Traveller's sites will be judged for suitability and sustainability by Warwick District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

Impact on local economy: If the plan goes ahead it will result in the closure of the Warwickshire Exhibition Centre. This business employs up to 40 jobs for the local community and contributes c. £2m to the local economy each year. Other businesses, such as local pubs, hotels etc would also be at serious risk of losing custom.

Access to local amenities: - The nearest available doctor's surgery is 5 miles away, has no capacity for the influx of new patients and with no direct bus service. The local primary school is also nearly at full capacity.

Travel: - The proposed site is on a high risk travel route with more than 12 serious accidents in the last 3 years. There are no pavements to walk anywhere and cycling is extremely dangerous on these very busy routes.

Rural and Historic Environments: The proposed site sits in a valley which could not disguise the visual impact for miles around. It would damage the wildlife habitat, site adjacent to protected ancient woodland. The site is also on the Archaeological Register with ancient pottery recently found. It is next to a major Roman road and there is a historic toll site nearby.

Warwick District Council will judge proposed sites against the nationally accepted criteria. The purpose of the criteria is to seek to meet the requirements of the Gypsy and Travellers community not necessarily local residents, businesses and employment.

Areas of concern could include:

• Agriculture • Animal Welfare • Co-existence • Crime • Ecology and Habitat • Education/Schools • Healthcare/Surgeries • Highways and Safety • Local Economy • Rural Landscape • Services and Utilities • Tourism • Traffic Density/Flow • Urbanisation.
