Local Plan.

Village Housing options.

Bishops Tachbrook Preferred option 1

Dear Sir,

My wife and I, object to the building of houses on the above preferred option 1. (Page 38/39 Local Plan Booklet)

We consider any housing development growth in Bishops Tachbrook is not needed for the size of population. It would spoil the beautiful landscape of rolling fields. We need to protect our rural way of life from becoming an urban sprawl. It would also spoil the character of the area. We must stop building on agricultural farmland.

The extra volume of traffic would cause further delays getting into Leamington and Warwick. It is very bad at times now.

It would cause extra impact on our services, the water pressure is sometimes low now. The noise from the M40 would be almost unbearable for the residents of any development here.

The noise level at the ~~leas~~, is very bad now. The school has a wildlife area, which is very beneficial for the childrens education. Any development on option 1 would destroy that area.

We would lose our scenic views of the countryside and our privacy.

We believe moving the 'Outline of the Village' to fit in houses, is wrong.
