What is the nature of your representation?

Support  Object

Please set out full details of your representation of support or objection. If objecting, please set out what changes could be made to resolve your objection (Use a separate sheet if necessary).

The No 1 proposed <sup>SITE</sup> site for building more dwellings in Radford Semele is subject to flooding. Outlet from this site would be onto the existing Southam Road that can already be a bottle-neck, and increased traffic from this new development could produce huge problems. All our roads in Radford Semele are basically cul-de-sacs, with all having to get out of the village via the Southam road. None of these roads are built to take volumes of traffic which we now experience, particularly School lane, which could be affected through another exit road on to Southam road. No 2 site and No 3 could be a better possibility, being a little further away from so many other roads feeding out from the village on to Southam Rd, also the landscape would be less disturbed.
