7. Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty co-operate. Please be as precise as possible. If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to cooperate, please also use this box to set out your comments.

It fails to comply with Section 19(2)(a) of the Planning & Compulsory Purchase Act 2004 - Local Planning authorities should include the provision for people wishing to build their own homes. The transport policy is not positively prepared - it fails to fully assess the impact of increased traffic & congestion on the Birmingham Road (A4177) - neither does it consider the effects on health of people through polluted air & emissions in Budbrooke. Warwick Policy Map in respect of proposed housing at Hatton Park has been reduced in site coverage but the number of houses only reduced by 10 - This density close to the very busy Birmingham Road will increase congestion and is a major concern for more accidents. No local consultation has been made over this and no consultation over the much reduced criteria for gypsy & traveller sites. The lack of consultation & a criteria which no longer considers the affect on the local community shows there is no integrity in this plan, Government policy requires exceptional reasons for any development in the Green belt but Warwick DC have none to offer and infrastructure issues are incomplete.

8. Please set out what modification(s) you consider necessary to make the Local Plan legally compliant or sound, having regard to the test you have identified at 7. above where this relates to soundness. (Please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

No one accepts that the plan is sustainable in its present form. The unwieldy process has only succeeded in confusing & angering the people of Warwick & its villages. The process by which the housing numbers have been reached is not sound - despite numerous questions over the numbers for some 18 months we were recently informed that they have been overstated by some 29%. The response we are making relates to old estimates which are now subject to review so there is concern that proposals could change without further consultation with the public because there is no time to do so. The infrastructure provision has not been fully assessed - utility needs & upgrades are long overdue, flooding is an issue in many localities & local village schools are full -

It is not too late to reconsider the plan and save Warwick from this "planned destruction of an 1100 year old town".

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage.

After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.
