7. Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty co-operate. Please be as precise as possible. If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to cooperate, please also use this box to set out your comments.

Policy TR3 links the development strategy to the accompanying Infrastructure Delivery Plan (IDP) and states that financial contributions may be sought to fund the defined transport infrastructure.

One of the defined pieces of infrastructure in the IDP is the 'Smart Motorways' initiative on the M40, between junction 14 and junction 15. This initiative is in a preliminary stage of development however and there is no certainty at the present time around either the requirement for it during the Plan period, or indeed the delivery mechanism which might be used to fund or deliver it.

In this context, the Highways Agency consider that this reference should be removed from the IDP, and replaced with a more generic term such as 'Traffic Management' measures which would include a range of initiatives to ensure the ongoing safety and efficiency of the Strategic Road Network in this location.

Continue on a separate sheet if necessary

8. Please set out what modification(s) you consider necessary to make the Local Plan legally compliant or sound, having regard to the test you have identified at 7. above where this relates to soundness. (Please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

In order to provide a more accurate and effective basis for the application of Policy TR3, consistent with Government policy, the Infrastructure Delivery Plan should be amended to remove the reference to 'Smart Motorways' on the M40. This reference should be replaced with a more generic term such as 'Traffic Management' measures which would encompass a range of initiatives, such as would ensure the ongoing safety and efficiency of the Strategic Road Network in this location.

Continue on a separate sheet if necessary

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage. **After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues** he/she identifies for examination.

Yes, I wish to participate at the oral examination

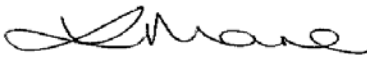

10. If you wish to participate at the oral part of the examination, please outline why you consider this to be necessary:

Continue on a separate sheet if necessary

Please note: This written representation carries the same weight and will be subject to the same scrutiny as oral representations. The Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate at the oral part of the examination.
