

Protect Lillington Greenbelt

Petition published by Diana Taulbut on Apr 20, 2014

Background (Preamble):

* Please note update re Campion Hills at the end of this preamble...

SIGNING IS NOW EVEN MORE IMPORTANT TO GET THE GREENBELT OUT OF THE PLAN!

Warwick District Council has prepared its draft Local Plan. After a backlash from residents in South Leamington and Warwick who protested about being burdened with the bulk of planned housing development, the Plans were modified, and Green Belt areas in the North of Leamington were added to the Local Plan.

These are Red House Farm (200 houses) and Campion Hills Recreation Ground (50 houses). Other possible options such as creating new small settlements within the district have not been included.

According to the Government's National Planning Policy Framework (NPPF), Green Belt land and public amenity land (recreation grounds, sports fields etc) should only be used in exceptional circumstances, and use must be fully justified. The loss of amenity must be compensated by provision of comparable facilities, stated in the Plan. The WDC Local Plan contains no admission of the loss of amenity and no provision for its replacement.

The "Landscape Sensitivity and Ecological & Geological Study" which supports the Local Plan has covered everywhere except the Red House Farm and Campion Hills areas. Only part of the Red House Farm site was included in the Greenbelt Survey, and Campion Hills Recreation Ground has not included at all. These are very serious omissions.

The NPPF says that 'Areas of Tranquillity', which have remained relatively undisturbed by noise and are prized for their recreational and amenity value, should be identified and protected. This does not appear to have happened. Newbold Comyn Country Park, Campion Hills Recreation Ground and Red House Farm land provide a contiguous public amenity linked by footpaths, which would be destroyed by building over two portions of it. Plenty use this amenity for travelling on foot or by bicycle within the area as well as for leisure.

The District Council's Local Plan claims that the use of Green Belt land around Lillington for housing is justified: "The [Green Belt] areas proposed for release are justified as follows: Red House Farm and Campion Hills: important for the regeneration of Lillington".

No further justification or explanation is offered in the Plan. Lillington is a (mostly) prosperous suburb of Leamington Spa, being home to around 11,500 people. 'Lillington East' (a small subdivision of Crown ward), is a very notable exception and has a score for multiple deprivation which puts it in the top 10-20% most deprived areas nationally, and a score for employment within the 10% most deprived nationally, based on 2007 figures. However, the demographic in Lillington has been changing and this information is at least 6 years old. The Local Plan contains no information as to how "Lillington" is supposed to be "regenerated". Community leaders and community workers have heard nothing. There is no information in the Plan's supporting documentation. There is nothing on the District Council's website. Lillington is almost exclusively residential and has very little local employment opportunities. There are no large supermarkets, business units or office buildings. There is no employment land provision for the area in the Local Plan.

The essential qualities of Green Belt land are "openness" and "permanence". Red House Farm area is a tranquil gem of unspoilt open countryside, probably the only place in the Warwick/Leamington conurbation which allows enjoyment of real countryside, free from roads and traffic noise, with good footpaths. The families of South and East Lillington, amongst others, enjoy this free, accessible, safe facility, taking their children to ride bikes and picnic, and paddle in the river. The area supports brown hares which are in drastic decline in the UK. The Riding School enjoys a safe, quiet area for horse riding. Add 200 houses, roads, cars, mowers, DIY noise, music and streetlights to the landscape and it will be ruined. Once Green Belt status is removed from the proposed building plot, the consequent degradation of the overall landscape and its quietness, loss of openness and permanence will help remove protection from the rest of the area separating Lillington, Offchurch, Radford Semele and Cubbington.

The Champion Hills is a jewel in Leamington's crown and a prominent site with magnificent views across to Leamington to Brailes Hill, Ilmington Downs, and across Warwick and beyond. This is public amenity land which is used freely by Lillington people and others for recreational activities and is where the fairs and circuses come. The BMX track is here, too. Any development here would detract significantly from the appearance of the Champion Hills. The very late inclusion of this piece of land has prevented public consultation on the matter.

The inclusion of Red House Farm and Champion Hills in the Local Plan is totally unjustified and may well lead to the Plan being rejected at Government inspection stage, which leaves the District open to any sort of development.

**** Update*****

At the WDC full council meeting on Wednesday April 23rd, the Local Plan was adopted after a vote, with various amendments including removal of Champion Hills from the Plan. However, Red House Farm land is still in. The further period of consultation now starts. There is still no justification for releasing Lillington Greenbelt. There are vague ideas about bulldozing flats at the Crest and replacing existing public service facilities (library, recently-built community centre, youth centre) and putting in a replacement multi-purpose facility.

The Greenbelt at Red House farm appears to be a carrot for a developer to take on the rest of the (yet completely unwritten) plan. Adding smart private houses at Red House farm changes the super output area statistics sufficiently to disguise the multiple deprivation. Demolition of social housing in East Lillington will reduce the density of social housing, again altering the statistics. Whereas a well designed, well thought out regeneration plan could do a great deal to address educational, housing and employment needs, there is no intrinsic need to use a portion of Lillington's greenbelt to achieve such a plan.

Petition Text:

We, the undersigned, call on Warwick District Council to remove Champion Hills Recreation Ground and Red House Farm from the Local Plan, and retain all remaining Green Belt around Lillington.

[Back to signature list](#)

Our greenbelt should be preserved for future generations. Please don't build on Red House Farm.

401 Brian Preddy

[Back to signature list](#)

Keep our countryside there is plenty of brown sites they are unpopular because the location will reduce profits

400 Nathaniel Taulbut

[Back to signature list](#)

It is amazing how the district council thinks building over all the beautiful countryside in leamington will improve how many people come here, most of the time the only reason why people come to leamington is because it has nice countryside and access to it, imagine what people who had just moved in would think if the district council built all over it!

394 Philip Moore

[Back to signature list](#)

WDC HAS NOT 1. proved "exceptional circumstances" ; 2. identified areas of exceptional tranquillity. The area is about to be hit with another major environmental and unjustified disaster called HS2. There is no plan for the "regeneration of Lillington and we do not need another 200 - 300 houses here.

391 Zahra Liessi

[Back to signature list](#)

We have got enough trouble as it is.

390 Chris McKinley

[Back to signature list](#)

I've lived here years played football on the hills
When there was a council pitch there now I walk my dogs and watch the kids enjoying the bmx track if you want to do something with champion hills and red farm think about the kids who will not benefit from these play areas if you build houses

382 Paul Southall

[Back to signature list](#)

Building houses on greenbelt is plain wrong. The whole point of greenbelt land is to leave it as countryside. Unlimited expansion is unsustainable. In 15 years time there will be another master plan using even more land. It has to be stopped.

378 Richard Elliott

[Back to signature list](#)

This land is for the enjoyment of everyone. I have been using it and enjoying it for 30 years and it's still a wonderful pleasure. Should not be taken away from anyone.

376 Matthew Maltby

[Back to signature list](#)

This land is enjoyed by many local people. Building on it is simply not acceptable.

374 simon bridge

[Back to signature list](#)

Loss of riding school unacceptable.
Loss of tranquility not addressed.

371 ALESSANDRO ROSIELLO

[Back to signature list](#)

The Green Belt is common good for the next generation too. Wildlife should be protected. Also destroying this area would increase risks of flood

370 Donna Mcguire

[Back to signature list](#)

Lillington already has enough houses n properties, and our green belts are few. Preserving these for our children and one day their children to see the natural rural beauty is a must. red house farm has been running for a very long time, not only is it an excellent riding school but the surrounding areas are stunning. As a mother of a child who has disabilities ive seen first hand that working with horses can have a massive influence on the child's behaviour n self esteem.

369 juliet mckinley

[Back to signature list](#)

Lillington has few amenities but the greenbelt around us for us to enjoy is one of them. Since we were children we have enjoyed walking down the lane and looking at the horses and wild life. It is also a pleasant walk down to the river which many people enjoy both in summer in and winter.

368 mike seddon

[Back to signature list](#)

There will never be adequate services, shops, doctors, schools, transport, road systems etc to support such a massive housing estate. DO NOT WRECK OUR PRECIOUS LOCAL ENVIRONMENT>

365 Alex Capper

[Back to signature list](#)

I ride at the local riding stables which is situated in this area, I this goes a head, what would happen to the riding school, the horses and their welfare as well as the ability to still attend this the yard for lessons. There would be less places to ride and less grazing for the horses. How would that be fair? Apart from that the development will ruin the beautiful countryside view we have to day! Let's not ruin that for our children, grandchildren, great-grandchildren. It should be left how it is for many people of all ages to enjoy. Please don't take this away from our future!

360 Aaron Maguire

[Back to signature list](#)

Signed

359 Danny Stevens

[Back to signature list](#)

I grew up in cubbington and played along the green belt between lillington and cubbington. It would be a tragedy to lose white bridge and surrounding woodland, and would be catastrophic for the wildlife!

355 Chris McCarthy

[Back to signature list](#)

Reinvest in the centre of Leamington as there are too many retail outlets / derelict blocks under your noses which should be reallocated.

350 Pauline Labram

[Back to signature list](#)

There are plenty of other places u could build without destroying our only bit of 'inner city countryside'

348 wendy mcmanus

[Back to signature list](#)

Our bit of country side9pk4

346 Madeleine Sarah Allen

[Back to signature list](#)

The open space where it is proposed to build 200 houses is a vital asset to all of us in Lillington, which is already densely populated. We need our green space! This is where my family walks regularly. We would be devastated to lose it.

343 Alan Sanger

[Back to signature list](#)

I am firmly opposed to the continual attack on our green belt land - if unchecked, this will eventually lead to the linking of the many distinct local towns into one conurbation, with loss of local character and vastly increased pressure on local amenities. There remain many available "brown belt" sites as yet undeveloped.

341 Rita Hostler

[Back to signature list](#)

Green belts are for the good of the community, I feel that this development will seriously jeopardise this.

340 John Hostler

[Back to signature list](#)

Please register my objection to the H04 proposed housing development in Lillington. This development will seriously jeopardise the recreational amenities in this deprived area.

339 Gemma Gold

[Back to signature list](#)

Protect our greenbelt

338 Ray Gold

[Back to signature list](#)

Protect our greenbelt

337 darren dupre

[Back to signature list](#)

being a leamington lad i want the green belt areas kept , as thats the beauty of leamington and surrounding areas , at this rate there will be no places left for our children and theres to appreciate the countryside .

334 lisa willshee

[Back to signature list](#)

Please do not damage this beautiful country side that is well loved by all

333 Kim Gold

[Back to signature list](#)

We don't need any more houses especially on beautiful greenbelt land. Leave nature alone. I take my children across the fields & teach them all about the nature & what's around them. How can i do that in a concrete jungle ? Leave nature alone & allow my children to show there children (My Grandchildren) what they have learnt.

331 mark verney

[Back to signature list](#)

The champion hills area is priceless to the local community, enjoyed and used by both young and old alike, if this development is allowed to take place it would have a negative effect on the local community . for present and future generations not to be able to benefit from this unique and tranquil part of our lillington would be unforgivable and inexcusable . change is permanent, When its gone its gone forever ...

329 Ruth Sanger

[Back to signature list](#)

The green belt land is an important space to maintain. Building on it creates a dangerous precedent. We need to preserve it for the next generation and for nature as well as for ourselves.

328 susan dawson

[Back to signature list](#)

Green Belt is too precious to be just disregarded and built on. Please use current buildings or consider brownfield sites.

327 pamel Cousins

[Back to signature list](#)

Although I no longer live around Leamington I have fond memories of the Campion hills. It will be a crime to remove this lovely area.

326 Elizabeth Tilley

[Back to signature list](#)

I lived in Leicester street for 14 years. My 2 children loved the Campion Hills for cycling, football, running, golf etc etc. This area MUST not be touched, it is an essential piece of real country where kids and adults can get freedom and exercise. It is a real community area. There is much deprivation around the Hills but this area of unmanicured green is open to all regardless of status. Please don't even just build on Red Farm, this will still start to 'civilise' this area and will be the beginning of the end.

323 Stephen Hucklesby

[Back to signature list](#)

The Greenbelt status of this land is appreciated by the local community and I can see no "exceptional circumstances" to justify depriving us of this green country area on a popular public footpath.

322 jennie wilson

[Back to signature list](#)

HS2 will have a negative effect on the countryside, with no added benefit to the local population. WDC need to consider the current population and the poverty already in area, the rate of crime and how by increasing the number of housing without the resources will be managed - "regeneration of Lillington"

315 mark ambrose

[Back to signature list](#)

the greenbelt should not be used for housing just because its the easiest way to do things brown field sits to be used first and to done inside the law

314 Kyle Joyce

[Back to signature list](#)

Once the countryside is gone, it's gone. You can't replace it, you can't get it back.

312 Stacey Preedy

[Back to signature list](#)

I work and study from home, I cannot possibly work with building going on. its bad enough for noise where I live. The only thing I even enjoy is the view and the ability to walk in these fields. This simply cannot be allowed to happen.

309 Cliff Joyce

[Back to signature list](#)

This development will be to the rear of my property so will take away the peace and quiet I have enjoyed for over 20 years. Lillington is a great place to live despite the so called reputation it has and this development will take away a great asset the can never be replaced.

307 hannah burch

[Back to signature list](#)

Please do not take our beautiful place away. It's lovely too walk around u nd. You take it away you take away our heart and soul. Soon there will be no beautiful places you can walk around. Our country side needs saving for us too use not be taken away from us. Long live English history not new age.

306 Liann Platt

[Back to signature list](#)

The only thing I love about where I live is the green space!!

301 Margaret Jakiel

[Back to signature list](#)

Such a beautiful recreational area. The area is already short of amenities there will be nothing left if another housing estate is built. Lillington is a deprived area and needs more money spent on improvements not more houses.

299 Susie Tawney

[Back to signature list](#)

I used to ride at Red House Farm for many years and during that time enjoyed the wonderful views. I would be terribly sad if this beautiful site was buried under concrete.

296 Chris Robbins

[Back to signature list](#)

Born and raised in Buckley Road (The Prefabs).

I enjoyed the local countryside and 'The Camps' and have wonderful memories of the area.

I wish that all current and future generations of Lillingtonians will also be able to have that right.

292 Luke Pittaway

[Back to signature list](#)

I grew up playing around these areas and their aren't many fields left around lilli grin as it is.

291 Lin Montgomery

[Back to signature list](#)

This recreational area has been used by generations of local people and should be kept for future generations. We need these area for our young people to play and keep them off the streets.

286 Daniel Arthurton

[Back to signature list](#)

we dont need another heroin hights

283 Andrew Mckinley

[Back to signature list](#)

Much of my childhood was spent on the BMX track at Campion Hills and also taking walks through Red Hill Farm with my grandparents to feed the horses.

280 Agata Furian

[Back to signature list](#)

It important to protect green speace around lillington and the red house farm is a place when many families come for walk. It is a tranquil and quiet countryside. There isn't a place like it near Leamington ang Warwick. And don't forgot horses it will be hard for them with all the new roads houses and noise. Protect the Greenbelt.

279 Mark Butler

[Back to signature list](#)

An important area that should be left as it is.

276 Gwen Avery

[Back to signature list](#)

There has been enough green belt taken away already where are the children suppose to go

274 duncan james

[Back to signature list](#)

enough is enough! this green belt land needs to be protected and not used to line the pockets of the council / mp's

273 Beverley Clarke

[Back to signature list](#)

Unecessary!! Taking away greenspace and country side.Ruining the community.That is already Established for over half a century.Lillington does not want or need more housing.When housing is already here.That need fixing and modernising.

271 Robert Haynes

[Back to signature list](#)

Please leave our fields and trees alone, take away our trees you take away the oxygen we breath, you will also take away the areas we have walked and played for years, and the memories people hold, why is it that Mp's and Councillors always plan these things where they don't live, well we don't want it either.

270 Angela Thomas

[Back to signature list](#)

Villages should be kept as villages, not merged together or to the nearest town.

269 Falco Guthert

[Back to signature list](#)

Town- & County-councils need to construct vertical towns [min. 6 storeys tall with lifts & not horizontal sproul of 1-storey Bungalows and tiny 2-/3-storey-houses.

Any noise-problems can be completely avoided by insulating all walls & floors/ceilings thickly; which is a double-win, as it serves as thermal-insulation as well!!!

265 Isobel Grundy

[Back to signature list](#)

There is already much traffic congestion at peak times and further development and erosion of green belt would only serve to exacerbate this problem. while depriving the area of much valued open space.

263 Chris Philpott

[Back to signature list](#)

If we run out of space to walk we run out of maintaining our sanity. Surely there are many brownfield sites which could be built on. Entering this space is like entering Narnia, as you go through the space between two houses in Lillington. It also feels ancient, that this land has been there for people to walk in since the time of King Offa. It would be a shame to ruin the magnificent walk to Offchurch.

256 Naomi Walker

[Back to signature list](#)

Dont build on this site, its precious, we use it every day, there is little free space to walk free, leave it be!!

255 Daniel Herd

[Back to signature list](#)

I'm soon to be moving to Buckley Road and want to enjoy the lovely green spaces round the back of my house.

251 John Dolan

[Back to signature list](#)

Insensitive proposals. Think again!

239 Salley Farquharson

[Back to signature list](#)

Although I do not live in this area it is one I travel to on a regular basis and enjoy the natural habitat it provides Flora, Fawna and all sort of living creatures not to mention the breathtaking views that can be enjoyed peacefully. Also my grandson enjoys such lovely surroundings that we do not have on our doorstep at home. There are few and few spaces that can be enjoyed by the community and well as visitors from other towns. Why spoil such natural beauty!

236 Robert Lockyer

[Back to signature list](#)

I walk up and around red house farm quite often with my children and cycle across the campion hills using these paths to get to Offchurch and radford in the summer

227 Anna Maria OFlynn

[Back to signature list](#)

Please try and reduce as much as you can I only ask. I know there are needs for housing etc but lets try and do the absolutely minimum here as poss in Leamington. It will have long term effects on our generation. Leam is already growing hugely fast!

225 Anthony Simmons

[Back to signature list](#)

"regeneration of Lillington" !
Don't make me laugh.

224 Lesley Campbell

[Back to signature list](#)

The Green Belt concept must be upheld. Once built on, there is no way back. However, there are always alternatives for housing.

223 Brenda Woodhead

[Back to signature list](#)

The Red House Farm site is a particularly beautiful piece of countryside. A public footpath runs through it. Many people use it and enjoy the tranquility. Growing up in Leicester Street, this whole area was an important escape for my parents and sister and me at the weekends when we walked the footpaths through fields to the White Bridge and beyond. Also my friends as we grew up, and of late my children and grandchildren enjoyed the riding school and surrounding footpaths and beautiful tranquil scenery. Where are the assessments of impact on the landscape, ecology, wildlife and amenity value? No public consultations have taken place for this area. Lillington does not have much going for it and this development will not change anything for all of its populace, except for taking away the beautiful countryside amenity . This valuable and unique area should not be lost to development - once started, where will it end? And this jewel which has been enjoyed for such a long time by many generations and can never be replaced will be lost for ever.

221 Mervyn Carter

[Back to signature list](#)

It provides an out door play environment for local children, as well as an area for peaceful reflection, with an outstanding view of the town and surrounding area

217 Laura Griffin

[Back to signature list](#)

lived near hear all my life, would hate to see it go ?

215 Noel McCarthy

[Back to signature list](#)

Green Belts were established to prevent precisely this kind of reckless mis-use of our countryside. These zones should not be abolished simply because the council thinks it would be a good idea! What's the point of having protected lands if

the zoning can just be chucked out the window? Outrageous.

211 Adrian Parker

[Back to signature list](#)

No comment, Just fury...

209 Steve Cherry

[Back to signature list](#)

It is important to retain the Green Belt at all costs for future generations. To retain the character and identity of villages and town, not to end up with one urban mass. It is also important to provide a corridor for wildlife to migrate from place to place which they need to preserve the species.

202 camilla stagg

[Back to signature list](#)

The land provides a peaceful beautiful area to walk, away from cars with our dog and children. We are able to do a circular walk from lillington via red farm to the river and onto Newbold Comyn. It will be such a shame if this greenbelt is lost to houses.

201 Lynsey Graham

[Back to signature list](#)

Destroying this bit of countryside is completely unnecessary to 'regenerate' Lillington. Open spaces are essential to everyone, and building on top of them isn't going to suddenly magic up a load of new jobs (outside of the construction industry). Try filling up the empty shops and business units in the town centre if you want to improve the area.

200 Neil King

[Back to signature list](#)

Yes I certainly sign your petition, i go walking past Red House Farm and the views from the top down into Leam Valley are spectacular, a lovely unspoilt area and just a short walk down you feel you are in the middle of the countryside, building 200 houses on top will certainly detract from this and increase anti social behaviour and ruin the area, even though its near Eden Court it manages to escape due to its hidden nature, Leam Valley near Cubbington Woods is another area with spectacular views which will be totally ruined by HS2, can't believe people want to ruin these areas of natural outstanding beauty, I've been to the Cotswolds and Leam Valley equals even surpasses anything there.

We all know residents to these 200 houses will take short cuts down black lane which people use to walk on and will make it a lot more dangerous.

199 jake john

[Back to signature list](#)

this area is of outstanding natural beauty, it has been part of almost every child's life in the area and a rare bit of country on the door step of the urban landscape. we are so privileged to have this on our door step why forgo that in search of financial gain? the access in the area isn't great either.

197 Wendy Carter

[Back to signature list](#)

We need the open green spaces for young people. The Champion Hills have always been an excellent free family amenity

196 Lucy Briscoe

[Back to signature list](#)

I have so many memories in red house, its a beautiful place and it would be such a shame to not allow people to enjoy the benefits of this site

195 Anthony Parker

[Back to signature list](#)

I have enjoyed many walks in the area and would be sorry to lose the amenity.

193 Emma Chapman

[Back to signature list](#)

Green belt is green belt why name it that if you are going to build on it, soon there will be no places to go as it will all be covered in houses

192 Anderson bell

[Back to signature list](#)

no, just no

189 Steve Litchfield

[Back to signature list](#)

There are better places to develop around Leamington than this.

185 ian boll

[Back to signature list](#)

disgraceful especially give the local authorities stance on other green belt imposing schemes such as hs2

182 Sara Maslowski

[Back to signature list](#)

Green belt is designed to stay green.

180 matthew bowen

[Back to signature list](#)

What a joke best years spent walking them lanes sort it out Warwick distric council.

178 David Stickley

[Back to signature list](#)

Green belts need our protection from the blight of urban sprawl.

172 Isabelle Butterworth

[Back to signature list](#)

Ridiculous leamington has lost too much of its wonderful country side and does not need anymore houses, who would want to move somewhere with very little green space?!

167 Madeleine Kent

[Back to signature list](#)

beautiful unspoilt countryside, one of the only areas to ride horses in the area.

165 m burden

[Back to signature list](#)

Please do not build on this beautiful part of Warwickshire.

159 Laura Williams

[Back to signature list](#)

The riding school is used by many locals and it is great to have a green area so close to the housing estate as it is easily accessible without any form of transport.

153 Jonathan Ambrose

[Back to signature list](#)

Campion hills is a rare area offering views over the area. The bike track there is used in national competitions & is a

community asset. This & Red House Farm should not just become fodder for housing.

152 Robert Downs

[Back to signature list](#)

This is an important green space for running, cycling and recreation

149 Rebecca Gozdecki

[Back to signature list](#)

Retain this beautiful area for the community and the riding school!!!

148 Rob Fairbairn

[Back to signature list](#)

Campion hills is one of a few green places in Leamington and provides dog walkers, runners, and many cyclists the chance to access the countryside which is just on their doorstep and should not under any circumstances be built on.

147 Zoe Adams

[Back to signature list](#)

My childhood memories will be lost forever should this development take place. Happy horses will be upset & beautiful scenery & wildlife will be disrupted.

Owls, woodpeckers & bats use the local barns & woods. DONT DO IT!!

145 Grant Barker

[Back to signature list](#)

This is outrageous! What a ridiculous idea to destroy one of the last open public areas in the community.

143 Christopher Mucklow

[Back to signature list](#)

I think it would be an awful shame to lose the site at champion hills with its great views along with the national standard bicycle track that is used by the biggest four cross racing organisation annually, encouraging many local youngsters to take up an active sport

142 Philip Pavey

[Back to signature list](#)

I regularly cycle around the Champion Hills area and think a development like this would significantly detract from the beauty of the area.

141 Andrew Robson

[Back to signature list](#)

Using this recreational land for housing provision is not acceptable as it would be removing amenities from the local population rather than increasing them. In short - just wrong!

139 Alison Irvine

[Back to signature list](#)

I grew up myself as a resident in Buckley Rd. Please allow the people of Lillington the ability to continue to enjoy the green spaces around them in the future. For many of the children growing up on the estate, this area around champion hills and red house provide the only opportunity to access truly green spaces rich in wildlife and fresh air which contributes enormously to their overall emotional wellbeing. A place of beauty nestled amongst some of the poorest families in Leamington. Don't build here, please

138 richard elliott

[Back to signature list](#)

What's the point of having green belt land if you intend to build on it anyway!

135 Matthew Maltby

[Back to signature list](#)

Outrageous! Don't let it happen.

134 Joseph Worrall

[Back to signature list](#)

Such community spaces and areas of natural beauty are few are far between so close to a town and many happy days were spent enjoying the charms of both areas when I lived in Buckley Road. Let's focus more on the well-being of our townsfolk and less on naked profiteering under the guise of meeting the housing supply and 'progress'.

126 Paul Judd

[Back to signature list](#)

I grew up in Cubbington and used the BMX track, I now use it with my son. We take walks around there and Red Hill farm. Please no more houses.

123 Stuart Foster

[Back to signature list](#)

My family use the recreation ground on a very regular basis. Any loss of public recreational ground is a tragedy and will detract from the overall wellbeing of any town.

117 Molly Burnell

[Back to signature list](#)

Red house farm, offchurch bury must stay for horse riders.

108 Kieran Barber

[Back to signature list](#)

As a regular cyclist I totally disagree with this so called plan to build houses on green belt land. Why not convert the dead spaces otherwise known as unused commercial land of which there is plenty.

107 Edyta Batruch

[Back to signature list](#)

I am in a full support to retain all remaining Green Belt around Lillington. I lived in the area for 5 years now and it feels like home for my family. I use the Red House Riding School for horse riding three times a week, and can't imagine horses adapting to the noise, it will permanently affect the school. Development will also affect families (including mine) that go for daily walks. I am concerned with Council's plans for development. At the same time I trust that we can find a common ground on which all stakeholders benefit equally.

106 Helen Lord

[Back to signature list](#)

This is an ill-considered plan and as such needs amending in line with the suggestions above.

105 Vicki Smith

[Back to signature list](#)

Green accessible space these days is a rare commodity. Please don't eat into what little green belt we have left.

103 elizabeth gower

[Back to signature list](#)

Stop the inter urban sprawl and maintain the integrity of the Green Belt

93 Michael Smith

[Back to signature list](#)

Protect the green belt.

92 kate baker

[Back to signature list](#)

Consider filling in brownfield sites first. CDerelict properties in town should be reclaimed for housing..Green fields and open space are as vital to a community as shops hospitals and schools. Keep green belt land green

91 John Kleba

[Back to signature list](#)

Me, my children and friends have been using the Greenbelt for walking, biking and running. The Lillington Greenbelt definitely improves our quality of life, health and leisure opportunities.

89 Richard Taulbut

[Back to signature list](#)

Sustainable regeneration of Lillington East cannot come from a one-off windfall from the sale of this patch of greenbelt. The benefits will soon be 'spent', but the loss of countryside amenity will last for generations. Once the first patch is lost, inevitably there will be pressure to release more and more to fuel transitory 'regeneration'.

87 SUE MILLER

[Back to signature list](#)

We need to keep our greenbelt land. This is an area I walk and love, as do many others living in Leamington and visitors to the district.

85 M Brown

[Back to signature list](#)

I have grown up in this area and continue to use these facilities with my own children. To lose these areas would be a real shame!

83 Mary Hunt

[Back to signature list](#)

Surely not building in green belt again!

76 Christine Hewison

[Back to signature list](#)

We need to stop these plans, once built on the green fields will have gone forever- too high a price to pay. Redhouse Farm is the only Riding School in Leamington, and provides a very valuable recreational facility for people of the area.

74 Michele Edgson

[Back to signature list](#)

I am concerned as this is another equestrian area and business under threat. No green, quiet areas to keep and ride. Don't forget people want to ride not just use bikes!!!! No one cares about us. Also all green areas are being used for the sqrawl. God help our children! There is land else where that can be used! Also to the Coventry Gateway!!!

70 Marianne Pitts

[Back to signature list](#)

The housing numbers projected for the district are far too high because WDC wants to ensure the Local Plan passes government inspection (very few have so far). Greenbelt should not be developed and neither should greenfield - brownfield and windfall sites will probably be adequate if we build to urban rather than "garden city" density.

63 patrice taylor

[Back to signature list](#)

I object to the new development proposed it will bring to much congestion to the area

45 carmen appleby

[Back to signature list](#)

Leamington is a beautiful town. Been priveleged to visit it a few times

43 John Butler

[Back to signature list](#)

I fully support this petition. This green belt land should not be developed.

42 Christine Butler

[Back to signature list](#)

I fully support this petition. This green belt land should not be developed.

38 victoria jones

[Back to signature list](#)

We need more green!

35 Lynne Furstenhofer

[Back to signature list](#)

Leamington's streets are already highly congested and when there is no wind, there is a noticeable deterioration in air quality. More houses inevitably means more cars, overcrowded schools and a strain on local hospitals, doctors' surgeries and the infrastructure in general.

Please do not spoil the town we love.

32 G S F Shire

[Back to signature list](#)

Quote, WDC Local Development Plan, Preferred Option 15, 15.9 - " Specifically' local plans should contribute to and enhance the natural environment by protecting and enhancing valued landscapes, geological conservation interests and soils and recognise the wider benefits of ecosystem services. As such a strategic approach in the local plan should plan positively for the creation, protection, enhancement and management of networks of biodiversity and green infrastructure."

Quote, David Cameron, Dec 2013- "We inherited a very complex Planning system and we got rid of about 1000 pages of planning guidelines and replaced it with the National Planning Policy Framework which is about 50 pages - this will give a proper framework and proper protection for the Greenbelt. Greenbelt land is only there to be built on in exceptional circumstances."

Despite the promises, the strategies, meetings, policies, statements all setting out objectives of green belt protection, biodiversity, protection of valued spaces" what does WDC do? Pick prime Greenbelt, a highly valued green space and propose to build on it.

31 Angela Owen

[Back to signature list](#)

Developers get the cash = `economic development`

The locals lose treasured amenities, wildlife, fresh air, quality of life and diminishing green belt that can never be replaced. The house buyers will live on a cramped estate, with poor amenities and traffic congestion. There will be no quality of life for anyone as any chance of this will be built on. There will be no `regeneration` apart from the expansion of the developers pockets. If WDC want to regenerate Lillington, put some cash into grass roots community issues. More estates, traffic, congestion, noise and cramped living conditions does not equate to regeneration, it equates to thoughtless destruction and quite frankly witless stupidity.

22 Beth Forster

[Back to signature list](#)

Please remove Campion Hills Recreation ground and Red House Farm from the Local Plan and all remaining Greenbelt land around Lillington. This area is a precious open space for our wellbeing with open views to surrounding countryside.

21 Ian Coulson

[Back to signature list](#)

This is poor, lazy planning and does not take into account the effect that HS2 will already have on the surrounding countryside. There is not the infrastructure for more houses, with better options locally.

17 Katherine Knight

[Back to signature list](#)

As a representative of Crown Community Church held in the Lillington Community Centre and working amongst the local residents I feel that this latest plan to use greenbelt land is unacceptable. Greenbelt is protected by law. If you change the law then all greenbelt areas are at risk.

12 Heather Sanneh

[Back to signature list](#)

Destroying some of the greenest and best recreational areas open to everyone for use, by covering it with housing will not regenerate the area but is certainly going to diminish the beauty of the district and shrink even more open space that benefits a community wider than the people who live by its side.

9 Pam Lawrence

[Back to signature list](#)

Born in Leamington near Campion Hills, always visit it just to sit and remember childhood days when visiting L/Spa. Would hate to see houses on it as it is a beautiful tranquil place available for all.

8 Annie Timlin

[Back to signature list](#)

Please do not destroy this area of natural beauty.

6 Alan Wright

[Back to signature list](#)

There is no justification for using green belt or amenity land - which is probably why none is given.

4 Margot O'Keeff

[Back to signature list](#)

Not the Campion Hills - it's a superb place to sit quietly overlooking the town and surrounding countryside and abundant wildlife.

3 ricky maull

[Back to signature list](#)

Keep all the green their is not enough of it as it is

2 Gary Timlin

[Back to signature list](#)

i feel this is a case of lets build there as the lillington people would not show much fight to this plan.....wrong! I am totally in favour of building new homes as we should have no children, families or adults living in poor private rented conditions or being homeless in this day and age. However...build on Brownfield land...not Lillington's only escape from the concrete. If there is an area that benefits from Greenbelt and Recreational land in Warwick District, surely it is Lillington. Housing estates need this land so it's people can find peace and natural enjoyment. This is an area to help sooth the mind, body and soul.....Protect Lillington Greenbelt....
