7. Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty co-operate. Please be as precise as possible. If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to cooperate, please also use this box to set out your comments.

Please see Representation accompanying this form from Save Warwick titled " Where the local plan falls down in planning for Transport"

Continue on a separate sheet if necessary

8. Please set out what modification(s) you consider necessary to make the Local Plan legally compliant or sound, having regard to the test you have identified at 7.above where this relates to soundness.(Please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Please see Representation that accompanies this document which shows that the traffic consequences of the proposals in the plan would be disastrous for Warwick and that statistics used to predict the impacts of traffic have been manipulated so as to ensure the proposals can fit the plan.

In reality the measures proposed do not deal with the anticipated transport impacts of the development and the development areas are not located in the right places for sustainability.

Proposals for sustainable transport are vague and the strategy is unlikely to deliver

The traffic consequences of the proposed development at Gaydon have been underestimated.

Development areas have not been located where the need to travel has been minimised

The impact of the traffic generated by the transport impact of the development proposals has been ignored.

Continue on a separate sheet if necessary

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage. After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.

9. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination?

No, I do not wish to participate at the oral examination

Yes, I wish to participate at the oral examination

10. If you wish to participate at the oral part of the examination, please outline why you consider this to be necessary:

The issues to which this representation relate are both macro and micro in scale. With such a range to be covered we are confident that the Inspector would find it helpful for the range of aspects to be addressed in detail and have available the professional expertise and local knowledge which the campaign groups can call upon. It is likely that the Save Warwick Group, for which I am the spokesperson, will wish to call expert witness to help make their case at the EIP{

Continue on a separate sheet if necessary

Please note: This written representation carries the same weight and will be subject to the same scrutiny as oral representations. The Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate at the oral part of the examination.

11. Declaration

I understand that all comments submitted will be considered in line with this consultation, and that my comments will be made publicly available and may be identifiable to my name/organisation.
