The Birmingham Road will struggle to support the additional traffic that will be generated by the occupiers of 55 new homes. The road is already very congested at peak times. There is a likelihood this may well add to the already increasing number of serious accidents and fatalities in recent years.

The site is unsustainable environmentally as the lack of local infrastructure (public transport, schools, shops) for the site will require additional car usage which does not comply with the National Planning Policy Framework's requirement to secure sustainable development.

Continue on a separate sheet if necessary

8. Please set out what change(s) you consider necessary to make the Proposed Modifications to the Submission Warwick District Local Plan legally compliant or sound, having regard to the test you have identified at Question 5 above where this relates to soundness. You will need to say why this change will make the Local Plan/Sustainability Appraisal legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Continue on a separate sheet if necessary

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested changes, as there will not normally be a subsequent opportunity to make further representations.
