I'm a new resident to Hatton and have the following observations. The proposed development (H28) is currently situated on green belt land. It is my understanding that this land is also part of the flood risk area. Since I moved to Hatton the field has been constantly waterlogged (as has parts of my garden). I do not think the land is suitable for housing development. If new housing were to go ahead, what effect would it have on the current balancing tank? Who would undertake a risk assessment?

My second major concern is the Birmingham Road. I have to use this road at peak times of the morning and evening and it is apparent that volumes of traffic often lead to severe delays which has a knock-on effect with an increase in pollution. In order to get my son to school on time I am finding that we have to leave home by 0745 (& even then it can take 40+ minutes to get to the Myton Road). Warwick town centre already struggles with the volume of traffic, this will only make it much worse. Building more houses will not ameliorate the situation, only worsen it.

Where will the children from the new houses be educated? Will the council make extra funds available to accommodate the children and are the local schools willing to accept an increase in numbers?

Continue on a separate sheet if necessary

8. Please set out what change(s) you consider necessary to make the Proposed Modifications to the Submission Warwick District Local Plan legally compliant or sound, having regard to the test you have identified at Question 5 above where this relates to soundness. You will need to say why this change will make the Local Plan/Sustainability Appraisal legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

I believe concerns about infrastructure and suitability of the land should be fully addressed and solutions found before any sod is cut. I would also like to be kept fully informed of any proposals affecting H28
