Being residents of Thickthorn Close for many years we strongly object to the envisaged access the planning department has put forward. The close is unsuitable to take the type of traffic, well intentioned how it seems will only act in future as a main entrance, as you point out the primary route is very close to the island junction that carries fast moving traffic. Please register our objections in this matter and think again where else you can make sensible access to the site.

Yours faithfully Norton and Rosemary Clark
