Subject: Warwick - Kenilworth Development Brief 1400 dwellings

Warwick – Kenilworth Development Brief
1400 dwellings plus 8 hectares of employment space

The proposal site is to the east of Kenilworth Railway Station and it is in travelling distance of the development such that people will drive, walk and cycle to the station.

Due to the size and location of this development, it will likely have an impact on Kenilworth Railway Station due to increased footfall.

The developer(s) of the site should fully fund all station enhancements to address the impact from the development.

An assessment of the proposals impact upon the station should be undertaken in association with Network Rail and the TOC.
